

d'Empordà 334-2-1 (78-25), Palafrugell 335-1-1 (79-25)

Porositat i xarxes de control 1:50 000

This figure is a topographic map of the Empordà region, showing geological porosity zones and control networks. The map is overlaid with a grid of coordinates ranging from 4640 000 to 520 000 on the x-axis and 4190 000 to 2950 000 on the y-axis. The map features several color-coded zones representing different porosity types: light blue for F (Fractured), green for I (Intact), and yellow for FC (Fractured-Cemented). Numerous small triangles, representing control network points, are scattered across the map, often accompanied by labels such as '17057-0051' with dates like '1974 - 2015 (689)' or '17022-0027' with '1996 - 2014 (27)'. The map also includes place names like La Bisbal d'Empordà, Pals, and Begur, along with various rivers and streams. A large area labeled 'LA BISBAL D'EMPORDÀ' is visible in the center-left. The Mediterranean Sea is to the east, indicated by the text 'MAR MEDITERRÀNIA'.
