

Legend table with columns for geological periods (Cenozoic, Paleogen, Mesozoic, etc.) and their corresponding geological units with descriptive text. Includes units like Oa, Oar, Oao, etc., and their descriptions such as 'Dipòsit al·luvial no diferenciat, Holocè'.

Legend table for geological units, continuing from the main legend. It lists units such as P0m1, P0mg1, etc., with their corresponding geological descriptions.

Signes convencionals table. It lists various geological symbols and line styles, such as 'Contacte normal', 'Anticlinel', and 'Cebussament de l'entramada', with their corresponding graphical representations.

Vertical sidebar on the right side of the map. It features the number '38' in a large font, the title 'Urgell Mapa geològica comarcal de Catalunya 1:50 000', and logos for the Institut Geològic de Catalunya and the Departament de Medi Ambient i Habitatatge.

Mapa guia (Inset map) showing the location of Urgell within the broader context of Catalonia and the Iberian Peninsula. It includes a scale bar and the text 'Col·lecció 1:50 000'.

REALITZACIÓ section. It contains a detailed text block describing the methodology and data sources used in the geological mapping, mentioning the BODGCOM and the Institut Geològic de Catalunya.

Footer section containing publication details, the publisher's name (Institut Geològic de Catalunya), the scale (Escala 1:50 000), and contact information for the project.
